5.2MPIX PHOTOCAMERA

This friendly, ergonomic new shape of this camera provides a secure comfortable grip, even when shooting one-handed or with a conversion lens attached. The FinePix E510 utilize 5.2 million effective pixels to deliver brilliantly sharp, precisely detailed images. The camera also benefit from Fujifilm's state-of-art digital and image processing technology in the form of a newly developed image processor. This system delivers true-to-life color reproduction and smoother tonality by precisely and accurately analyzing lighting conditions, and the color and tonality of subjects. Now you'll have a bigger, sharper view: the extra-large 2-inch, 154,000-pixel TFT LCD monitor makes it easier to frame your shots and more enjoyable to review them. Even outdoors , it's bright and glare-free.

The FinePix E510 incorporate a new developed high-performance 3.2x Fujinon wide zoom lens (28-91mm equivalent). Add digital zoom of up to 3.9x and you have remarkable zoom versatility. Casual snaphooter or advanced photographer. You'll find a shooting mode that's right for any situation.
