**SECURE DIGITAL CARD**

Dimensions: 24 x 32 x 2.1mm, 2 grams.  
 This card was designed especially considering security requirements and offers a "write protect" switch to avoid unwanted altering of your data. Furthermore, it has a copyright / encrypting security that will prevent access to data in case of loss or theft (SDMI / CPRM code). The card supports MMC compatible operation.

Writing speed: up to 6X (approx. 1MB/sec), reading speed: up to 40x (approx. 6MB/sec).

**EXTREME DIGITAL MEMORY CARDS**

Dimensions: 20 x 25 x 1.7mm, 2 grams.  
 This extremely small card combines high speed with tiny dimensions and low power consumption. They are mainly used in digital cameras. At this moment, only Fuji and Olympus produce these cards. The Olympus version offers a "panorama" function that Fuji does not support.

Writing speed: up to 20X (approx. 3MB/sec), reading speed: up to 32x (approx. 5MB/sec).

**SECURE DIGITAL CARD HIGH SPEED**

Integral SD Cards use an advanced hi-speed controller to ensure that when you take a picture, data is saved faster so there is less time to wait before taking the next picture - perfect for professional and hi-megapixel cameras.

Capture the moment in fast-changing environments like sports events, where every second counts.

When taking digital movies a hi-speed card is essential: giving you longer movies with more frames-per-second for smooth playback

Any SD Card compliant camera with 4 million mega pixels or above should benefit from a high-speed card.

Super-fast write speed of 9MB/sec (60X)\*  
 View your pictures with a read speed of 10MB/sec (66X)\*

- \*Solid State - No moving parts
- \*Compliant with the Secure Digital Music Initiative (SDMI)
- \*Non-Volatile - Data maintained with no power
- \*Complete with FREE protective case
- \*Tested with a wide range of devices
- \*N.B. An SD Card will NOT normally function in a MultiMediaCard socket

**MULTI MEDIA CARD**

Dimensions: 24 x 32 x 1.4mm, 1.5 grams.  
 Because of the small size, it is extremely suited for use in mp3-players, mobile phones (WAP), organizers, GPS systems and voice recorders. Not DUAL VOLTAGE can not be used for NOKIA 6630  
 Writing speed: up to 11x (approx. 1.5MB/sec),  
 reading speed: up to 13x (approx. 2MB/sec).
