BUDGET Vs PREMIUM

Helping you connect your entertainment & electrical components.

What is a Budget cable or connector? ...

All our Budgetline products are designed for everyday use.

After 20years of experience in the Audio Video market we know our A/V Cables and Connectors. In fact, most of the installers who buy from us, prefer and recommend our Budget cables and connectors. They know they work and are well priced for everyday use!

Currently our Budget Cables and Connectors have a shielded black cable, or case with Nickle plated connectors. However, unless stated they are being replaced with gold plated connectors.

We guarantee that our Budget Cables and Connectors will do the job that they are designed to do, and that is, to transmit the best possible Audio Video signal, at the best possible price.

All our Budget Cables and Connectors are of the highest quality in design and construction. All our Budget Cables and Connectors meet ROHS standards (safest on the environment).

What is a Premium cable or connector? ...

All our Premium Cables and connectors are designed for the perfectionest. Premium Cables and Connectors will always deliver the very best possible Audio Video signal. Whether it be Digital or Analogue, Premium always delivers the very best transmission of Audio and Video. If you after the very best premium HI-END cables, at the very best HI-END price, then our Silverline Plus (Premium) is the way to GO.

After 20years of experience in the Audio Video market we know our A/V Cables and Connectors. In fact, all our Premium cables and connectors are the best you can buy, unless your making them yourself. Premium may not have the monster price, but they are HI-END!

All our Premium Cables and connectors have a double shielded, oxygen free black cable, or case with Gold plated connectors. Premium cables also have a ferrite Suppressor to avoid Electro Magnetic Interference (EMI). Premium Plugs have 24k gold plated contacts for superior signal transfer and corrosion resistance. Premium Conductors have highly pure 99.96% Oxygen Free Copper to ensure excellent conductivity. Premium Insulation is low density Poly-Ethylene insulation to reduce signal loss and improve transmission quality. Premium Shielding is advanced multiple screening by aluminium mylar foil with 100% shield coverage and screening braids to protect against radio frequency interferences. Premium Jacket has a flexible PVC outer jacket and strain relief design for optimal cable protection. Premium Cables have a ferrite suppressor to avoid Electro Magnetic Interference (EMI).

We guarantee that our Premium Cables and Connectors will do the job that they are designed to do, and that is, to transmit the best possible Audio Video signal, at the very best possible price.

All our Premium Cables and Connectors are of the highest quality in design and construction. All our Premium Cables and Connectors meet ROHS standards (safest on the environment).
